

# Characterization Chart

Characterization is the way in which authors convey information about their characters. The following chart shows five ways in which we learn about characters through their speech, appearance, thoughts, actions and perceptions from other characters.

**Directions:** Use this Manga Classics chart to analyze a character of your choice.

1. In the first column, pick a scene from the Manga Classics Adaptation that reveals information about the character. List the page number along with a brief description.
2. In the second column, explain what you learned about the character from this example.
3. In the third column, cite specific quotes from the original novel to support your analysis. List page number where you found the quotation
